

The IoT Inc Business Meetup Silicon Valley

Opening remarks and guest presentation

Bruce Sinclair (Organizer): bruce@iot-inc.com

Join us on December 3 at 6PM PST

Hey IT, Meet OT

Hima Mukkamala
Predix, GE Digital

IoT Inc. Meetup

Target of Meetup

For business people selling products and services into IoT
but of course everyone else is welcome: techies, end-users, ...

Focus of presentations and discussions:

Business Models
Support
Marketing
Sales
Distribution
Finance
Post Sales
Pre Sales

Two-Day IoT Workshop

I am delivering my 2-day intensive workshop:

“Planning Your IoT Business and Product Line”

Mountain View Computer History Museum on [Dec. 14-15](#)

Details at: <http://www.iot-inc.com/training>

Register at: <http://iotworldevent.com/academy/2015/> Use discount code: **IoTInc25**

Will be also delivering my 1-day workshop on January 13, 2016, the day of our next meetup

Coming Up

Next Meeting, Wednesday, January 14, 2016

IoT Business Meetup, Silicon Valley Meetup, Internet of Thursdays Meetup and the Industrial Internet Meetup

IoT Mega Meetup: Four IoT Meetups Unite

Presentation, recording of Meetup and announcements for today's meeting will be sent in one week to everyone who provided their email upon signup for this meeting or any other past Meetup

My email: bruce@iot-inc.com

Join us on **December 3 at 6PM PST**

Something's wrong here...

75-80% of intelligent industry solutions will be data intensive.

This goes **beyond what traditional systems can deliver** such as back-office, ERP-related billing, procurement, and enterprise asset management systems — leveraging **massive amounts of sensor data** via advanced **predictive analytics**.

Customized Optimizers

- Dynamic controls
- + Digital Twin + PREDIX

New Services & Products [New Revenue]

Digital Twin – Creating the Cloud-Based Data Economy

- Dynamic teams of cooperative machines with similar operational and/or financial objectives.
- Generate content on their current & optimal states for specific operational and financial objectives.

Optimal settings for new operational modes:

I'm a new addition to this ridge. What is the prevailing wind direction?

Generally $183^\circ \pm 5^\circ$. We're also sending our optimal vortex wake configuration.

Failure mode inquiries:

I'm seeing an anomaly – is it a precursor to a failure?

We saw it and then experienced a blade rupture two days later... Coincidence?

Possible Security Anomalies:

We detected a suboptimal unit rotation outside control tolerances. Should we raise an alert?

We observed the same anomaly last week during scheduled tower maintenance. Check the service schedule.

New Services

- 1 Publish and Search across domains, objectives, scenarios, and modes
- 2 Translate and Understand for Specific Assets & Conditions

Swarms can generate valuable content to broker to other swarms or individuals:

- Optimal configurations
- Failure mode identification
- Optimal controls
- New algorithms
- New security and fraud mitigation techniques

I'm newly installed. What is the right fuel to air ratio at this site?

Generally $1.75\% \pm .05\%$. We also see temperature swings of 40° .

1.77% is currently optimal

Simulate $1.75\% \pm .05\%$ at current state

Knowledge Extraction

Predix Platform Architecture

End-to-end platform, machine to cloud

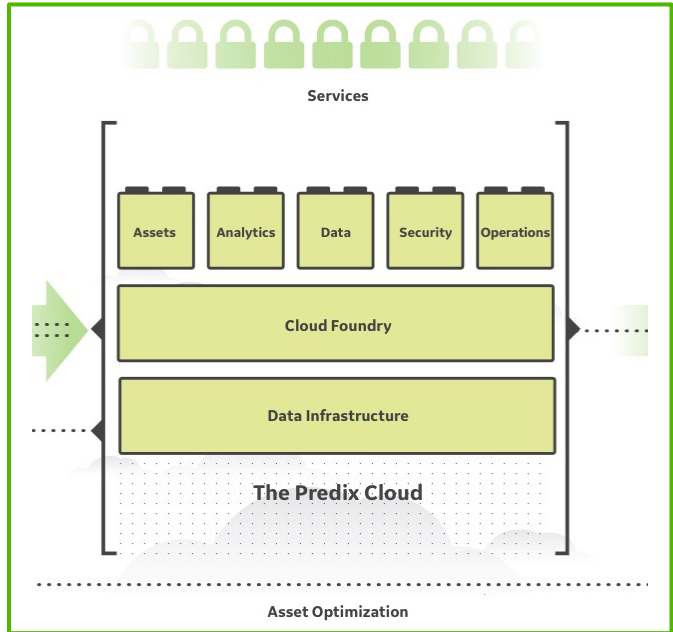

Connect ALL your OT / IT Systems

- **ANY** asset (GE, non-GE; new, old)
- **ANY TIME, ANY PLACE** connectivity
- **EDGE** analytics
- **PUSH** software updates
- **SECURED** device management

Digitize, Analyze, Monetize in the Cloud

- **ASSET DATA** models, from pipe to plant
- **ANALYTIC** modeling (R, Matlab, ...)
- Packaged **DATA SCIENCES** (GE, partners)
- Data at **SCALE** (fast, vast)
- **METERING** and **COSTING** (BizOps)

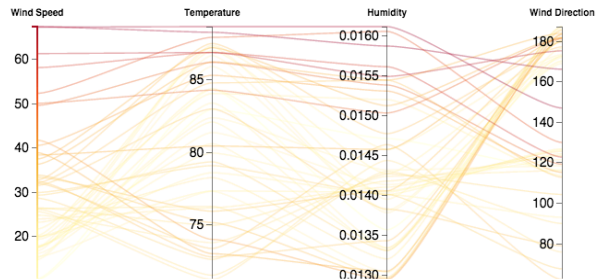

Dashboard

Location

Weather

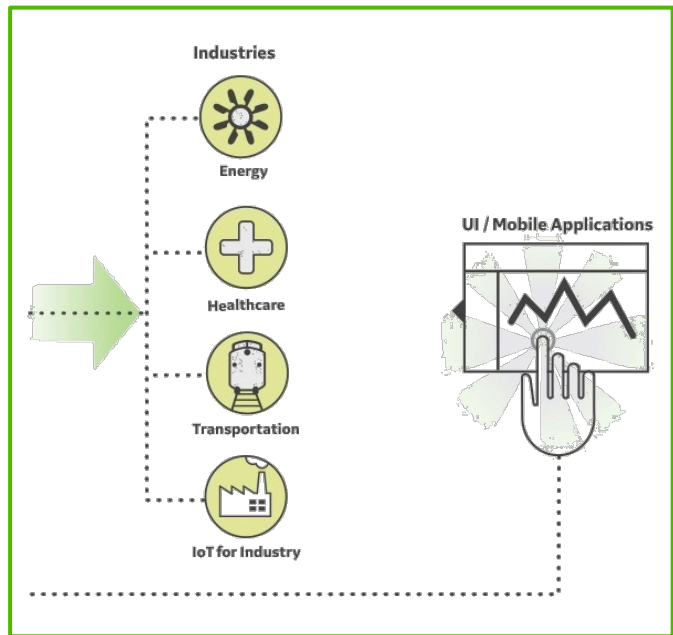

Prediction - Probability of Wind >= 55mph

■ 1 Hour Ahead ■ 2 Hour Ahead ■ 3 Hour Ahead

Build & design your apps FASTER

- **DEVOPS** frequent deployments
- **AUTOMATION** with Microservices
- Roles-based **EXPERIENCE** for industries
- **ANY** dev tool, programming language
